

# Medication Therapy Management Rotation

## WHAT WE DO:

Comprehensive MTM  
Managed Care  
Formulary Management  
Transitions of Care  
Care Management

## ABOUT THE COMPANY

At Magellan Rx Management, we are a full-service PBM with a value-driven approach to delivering targeted clinical programs, powerful member and provider engagement strategies, advanced analytics, and expert specialty pharmacy management capabilities that help our customers and members solve complex pharmacy challenges.

We're proud to serve our members and help those who need us most. It's our mission to lead humanity to healthy, vibrant lives – whatever the circumstances. Our diverse and talented workforce does so by making powerful contributions that are purposeful and rewarding.

## ABOUT THE ROTATION

During the 6-week MTM rotation you will be collaborating with a team of pharmacists, registered nurses and mental health professionals. You will learn how to make a difference in the lives of real people by lowering costs and improving outcomes.

### GOALS

- Develop knowledge of clinical guidelines
- Identify gaps in drug therapy and care
- Create evidence based drug therapy recommendations

### PROJECTS

- Provide telephonic MTM services
- Review principles of geriatric medication therapy
- Learn to assess primary literature
- Develop and present patient case studies
- Prepare and present formal presentations
- Research and prepare drug information responses
- Participate in various meetings
